

Nethinim Technologies Nigeria Limited is high profiled and leading technology company in Africa specialized in security services. We are dedicated in improving and protecting your assets against mishaps.

We champion the fight against car theft and have recovered 100% of the cars stolen under our watch.

Our after sales service is magical, and our response towards vehicle recovery is excellent. We partner with the anti-car theft department of the Nigeria police and for our products, we give 2years warranty on our car tracking device with free car recovery.

Nethinim Technology proffers solutions on:

- (1) Car security and fleet management
- (2) House surveillance and active monitoring
- (3) And other security services

How does this work:

Car security: Due to the high increase in car theft and losses in fleet management business we have devised a means to tackle it efficiently by using state of the art technology to proffer solutions on fleet management, cargo, school buses and furthermore elimination of car theft via our GPS cloud tracking system.

Facts about Car Theft

- Car theft is real, let Nethinim protect it
- During car theft when car snatchers collects a car at a gun point the first thing they ask is do you have a vehicle tracker? If you call the police to report a stolen car the first question they will ask is, do you have a vehicle tracker, if a vehicle tracker was not important no one will ask.
- Do you know keyless entry system (cars with push/start button) is not for security but for convenience?
- Do you know is cheaper to install a GPS vehicle tracker than to buy a new car?
- Do you know that Auto theft is an estimated \$7.5 billion business?
- Do you know In Abuja, Nigeria's capital, at least five car theft cases are reported every day?
- Do you know A car can be stolen within 60 seconds?
- Do you know that by driving a particular model of car you have been made a target/victim of car theft?
- Do you know that through the OBD port in your car, the immobilizer stimulator can be bypassed to start a car without your car keys?

Features

1. With our GPS tracking system you can monitor the movement, direction, speed and the location of your car online (via our live GPS tracking software).
