CCTV

CCTV SYSTEMS: Experience peace of mind with our state-of-the-art CCTV systems. We offer a range (5MP to 4k) of high-definition, warmlight cameras that deliver a 24 hour crystal-clear colour view video quality and Audio functionality that allows you listen to crisp audio captures. Whether it's for monitoring your home, business, or any other property. Our systems include:

i. High-Definition Cameras: Capture every detail with HD clarity. Our cameras come equipped with features such as wide-angle lenses, night vision, and weatherproof casings to ensure reliable performance in all conditions.

ii. Digital Video Recorders (DVRs) and Network Video Recorders (NVRs): Securely record and store video footage with our advanced DVRs and NVRs. With capabilities for remote access and real-time monitoring, you can stay connected and keep an eye on things from anywhere in the world.

iii. Smart Integration: Seamlessly integrate your CCTV system with mobile apps and other smart home devices for real-time alerts and control.

SMART LOCKS

SMART LOCKS: Elevate your home security with our premium quality smart locks. Combining convenience through a sleek 3D, fully automated face and CNC Precision Carving Technology (same craftsmanship as the Iphone) with high-level protection through factory fitted thick tempering glass covering, these locks offer:

i. Keyless Entry: Enjoy the freedom of keyless access with options such as PIN codes, biometric fingerprint scanners, and smartphone connectivity.

ii. Enhanced Security Features: Our smart locks come with advanced encryption and tamper-resistant technology to ensure your property remains secure.

iii. Remote Access: Control and monitor your locks from anywhere using a smartphone app, and grant access to guests with temporary digital keys

The main features include: External Lithium Battery Power Supply, Biometric Authentication, Remote Keypad entry, Autolock Function, Tamper Alerts, Anti-Pry, Customizable Option, Body Detect, Doorbell Function.

SMART HOME

SMART HOME SYSTEM: Step into the future of home automation with our all-in-one Smart Home System. Designed to enhance both convenience and security, our system seamlessly integrates cutting-edge technology into your daily life. From the sleek, precision-crafted smart locks to intuitive control of your home's environment, enjoy full control at your fingertips.

Our Smart Home System includes:

i. Remote Access & Control: Monitor and manage your home from anywhere in the world. With our easy-to-use app, you can lock/unlock doors, grant temporary access to guests, and receive real-time security alerts.

ii. Seamless Integration: The system integrates effortlessly with other smart devices, such as lighting, thermostats, and cameras, creating a fully connected and automated home.

iii. Advanced Security Features: Enjoy peace of mind with tamper-resistant technology, encryption, body detection, anti-pry functions, and tamper alerts. Your home's security is constantly monitored, keeping you safe and secure.

iv. Customization: Tailor your system to suit your needs. Whether it's adding a custom doorbell feature, adjusting the auto-lock settings, or creating a personalized security zone, your smart home adapts to you.

HOME AMBIENT SOUND SYSTEM

AMBIENT BACKGROUND SOUNDS: Create a serene and inviting atmosphere in your home or business with **Nethinim Technologies Nigeria Ltd's** ambient background sound systems. Our solutions are designed to enhance comfort, improve ambiance, and contribute to a pleasant environment through carefully curated soundscapes. Here's a comprehensive look at our ambient background sound offerings:

i. High-Quality Sound Systems: Experience premium audio quality with our advanced sound systems, which are engineered to deliver clear and consistent sound throughout your space. For a seamless look, you have the option to choose from built-in speaker solutions or surface installation.

ii. Customizable Soundscapes: Tailor the audio experience to suit your preferences and needs with our customizable soundscapes. Choose from a range of sound options, including soothing nature sounds (like rain, ocean waves, or forest sounds), relaxing instrumental music, or ambient noise masking.

iii. Noise Masking Solutions: Improve privacy and reduce distractions with our advanced noise masking systems. Our systems can generate white noise or pink noise to mask unwanted sounds from external sources, creating a more focused and private environment. This is particularly beneficial in office settings or homes located in noisy areas.

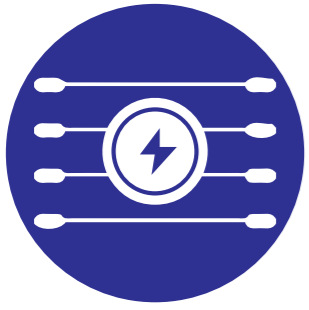

GATE AUTOMATION

GATE AUTOMATION: Enhance the security and convenience of your property with **Nethinim Technologies Nigeria Ltd's** advanced gate automation solutions. Our cutting-edge systems provide seamless access control, sophisticated functionality, and increased safety, transforming the way you interact with your property's entry points. Here's an in-depth look at what we offer:

- i. Sliding Gates:** Our automatic sliding gates are an excellent choice for properties with limited space or where a smooth, horizontal opening is preferred.
- ii. Swinging Gates:** Ideal for properties with ample space, our automatic swinging gates combine elegance with functionality.
- iii. Barrier Gates:** Perfect for high-traffic areas such as commercial properties, parking lots, and gated communities, our barrier gates offer efficient vehicle control.

in general, the main features include: **Smooth Operation, High Durability, Safety Sensors, Remote Control & Keypad Access**

ELECTRIC FENCE

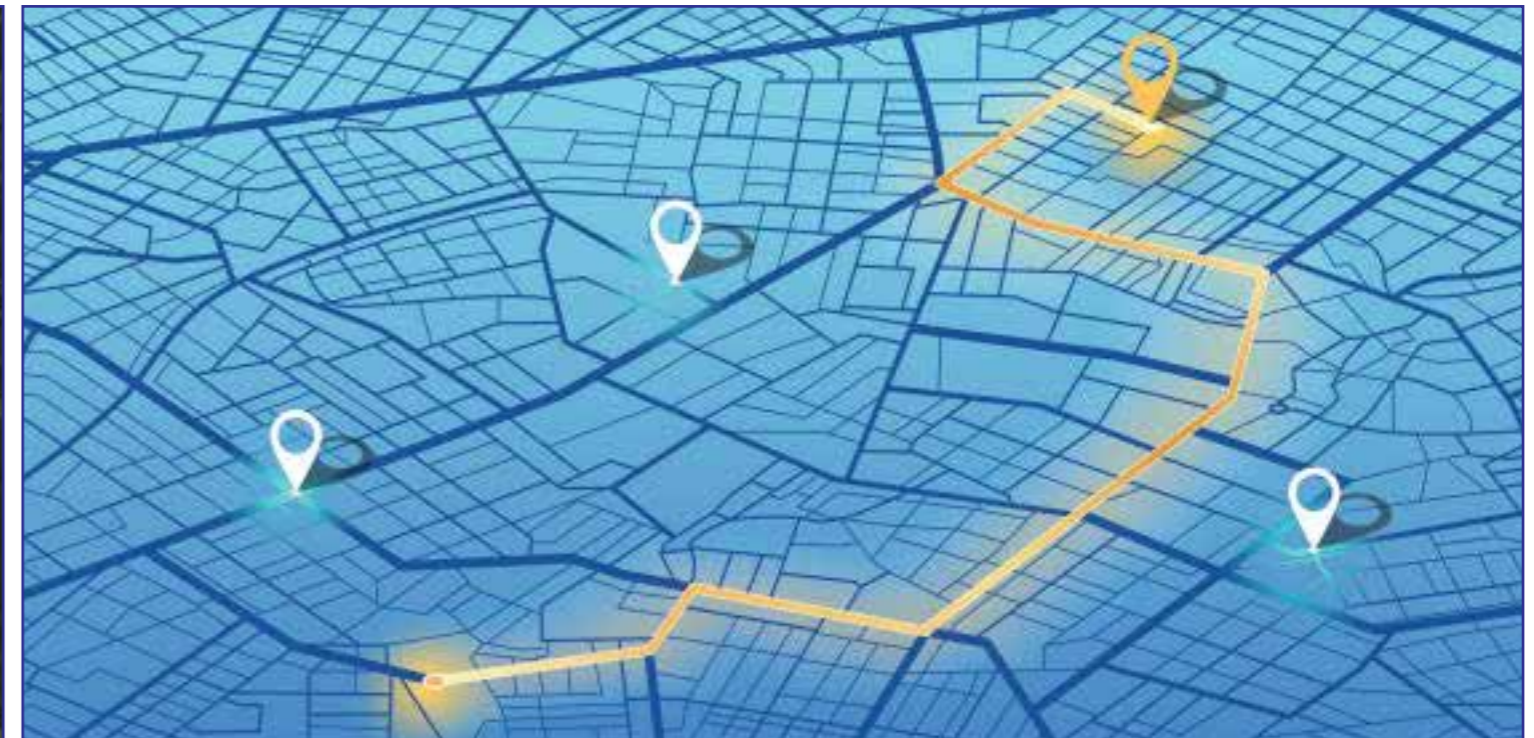

ELECTRICAL FENCES: Nethinim Technologies Nigeria Ltd's offers advanced electrical fence solutions designed to provide robust and reliable perimeter security for both residential and commercial properties. Our electrical fences act as a powerful deterrent to unauthorized access while ensuring safety and compliance with relevant standards. Explore our comprehensive range of electrical fence solutions below:

- i. High-Voltage Fences:** Deliver a powerful deterrent with high-voltage systems that create a secure boundary while remaining safe and compliant with regulations.
- ii. Low-Voltage Fences:** For a more subtle approach, our low-voltage systems offer effective deterrence with minimal visual impact.
- iii. Custom Design:** Tailored to your specific needs, our electrical fences can be integrated with other security systems for enhanced protection.

VEHICLE SECURITY SYSTEM

VEHICLE SECURITY SYSTEM: With the notable increase in car theft and losses in fleet management business, we have developed an effective solution using state-of-the-art technology. Our GPS cloud tracking system provides solutions for fleet management, cargo transportation, school buses, and other vehicles with the aim of eliminating car theft.

Features:

GPS tracking for monitoring movement, speed, and location online, Anti-Theft measures and remote engine shutdown, Vehicle maintenance alerts via SMS, Fuel consumption monitoring, Compact size for easy concealment in the vehicle, Saves up to 50% GPRS traffic, History data playback, Car GPS/Power alarms via SMS/email/call, Anti-Jamming alarm, Speed alarm for regulating vehicle speed, Geo-fence alarm for designated area notifications, Voice monitoring, Shock and power cut alarms.
